Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Claims 1-14 are pending. Applicant's May 3, 2004 Amendment and REMARKS have been reviewed. The previous rejection is withdrawn pursuant thereto.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kayser, US 5,736,967.

Kayser discloses, e.g. Fig. 9a, an electronic display tag and reporting an error via a display, e.g. col. 13, lines 44+. Kayser does not disclose the term status request. However, the reporting of the error via the display would be independent of test disclosed by Kayser. To have provided a detected failure independent of a status request for Kayser would have been obvious to one of ordinary skill in the art. The motivation for having provided such would have been to incorporate common knowledge independent analysis functions for the display tag disclosed by Kayser.

4. Claims 1-14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Goodwin, US 5,828,315.

Goodwin discloses an electronic price label (EPL) and a diagnostic command that orders the EPL to run internal diagnostics, e.g. col. 7, lines 7-9. Goodwin does not disclose the term status request. However, the current operating information, e.g. the content of certain registers or flags, instead of actually commanding the performance of an internal diagnostic test is disclosed by Goodwin. To have provided a detected failure independent of a status request for Goodwin would have been obvious to one of ordinary skill in the art. The motivation for having provided such would have been to incorporate common knowledge independent analysis functions for the EPL disclosed by Goodwin.

5. Applicant's Information Disclosure Statement received April 15, 2005 has been reviewed. Note attached PTO-1449.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
